

2018-2019 Summer Work

The seventh and culminating aspect of the learning process involves guiding students to identify ways to use what they have learned by applying it for the good of themselves and others. This involves taking responsibility for their own learning and being of service within their community. Therefore, the summer is centered on the following objectives:

- the care and keeping of knowledge and skills acquired during the school year
- the care and keeping of self, family, and community

To access your child's summer work, please visit the school website (www.crescentacademy.org) and follow the steps below:

1. Hover over the 'Academic tab' and then click on the grade span your child was in last year.
2. From there, please visit one of the grade level websites for the grade span your child was in last year (i.e. If your child is entering 6th grade, you will want to visit the 5th grade website).
3. Find the 'Summer Work' tab and follow the listed directions for the grade level your child was in last year.
4. Please ensure that your child's summer work is printed, completed, and ready to be submitted to their teacher on the first week of school.
